David Michael & Co.

The company that discovered the Fifth Taste.
Over a century ago Ajinomoto discovered the Fifth Taste, UMAMI, naturally found in favorite foods like hearty meat, mushrooms, tomato and parmesan cheese. Capturing the taste of UMAMI and creating food ingredients that provide its distinctive flavor was no small feat. While others are just now getting around to talking about UMAMI, please remember that Ajinomoto is the first and foremost supplier of the food ingredients that unequivocally deliver UMAMI, the Fifth Taste: MSG, glutamate salts, yeast extracts, IMP, GMP and I+G.

When you are looking to add UMAMI, make sure you add the pure taste of UMAMI by getting the spelling right: A-J-I-N-O-M-O-T-O.

Rivland rice flours...

None better under the sun!

A solid reputation for superior quality, consistent supply, friendly customer service, experienced technical support and a comprehensive product safety program has earned us the first name in rice flour.

At Rivland, our neighbors grow the rice and our friends transport it from the fields to our mill. We all take personal pride in ensuring the quality and safety of our rice flour from the field to you. That’s why we know there’s none better under the sun!

For information, please call or visit us on the Web.

Every kid is a superhero
We work with our customers to make sure everything a kid eats is Super nutritious.

CHILDHOOD NUTRITION
One of the super powers most kids have in common is super sensitivity to off flavors, aromas and textures. This can make formulating healthy foods for kids a big challenge. Just as super heroes need to hide their identity behind a mask, super nutrients also need to go undetected.

Watson works with your customers to formulate nutritional premixes that give kids’ food the nutrients children need most to grow up strong and healthy. Our micro-encapsulation technology ensures that any objectionable flavor notes from the nutrients are masked so that your product’s flavor profile is not changed.

Want whole grain goodness without the grit? Our Perfect Grain™ is micronized so fine kids will never know they are eating whole grains.
